

LIFE BEAUTIFULLY DESIGNED
HAPPY VALENTINE'S DAY PRINTABLE
SPREAD THE LOVE!

I LOVE A CLASSIC BLACK AND WHITE CARD BUT USE WHATEVER COLOR YOU WANT!
JUST REMEMBER THE TEXT WILL ALWAYS PRINT IN BLACK.

I also prefer an uncoated (not shiny) cardstock - whatever the thickness your printer can handle.

Please check your paper and printer specifications first!!

HAPPY
Valentine's
DAY!

FOR BEST RESULTS, HERE ARE SOME TIPS FOR CUTTING:

*I SET THIS UP FOR USING AN X-ACTO KNIFE, BUT IF YOU DON'T HAVE ONE,
A SLIDING PAPER CUTTER WILL WORK AS WELL!*

- Use a metal ruler to line up the vertical crop marks (1), then horizontal (2).
- Try to cut in one continuous motion, without lifting the blade! Go slow!
- Always cut along the side of the paper that will not be on the card, in case your blade slips!
 - Don't cut all the way off the page, or you will lose your guides!
